TYPES OF WINDOWS

Stylish • Durable • Secure • Energy Efficient

CASEMENT WINDOWS

Casement windows are side-hinged windows that open outward or inward like a door. They provide excellent ventilation, natural light, and unobstructed views with a tight seal for better insulation and security.

UPVC CASEMENT WINDOWS

UPVC caseiment windows are made from unplasticized polyvinyl chloride, known for their excellent insulation, low maintenance, and long-lasting performance.

- THERMAL INSULATION**
UPVC offers superior heat insulation, keeping your interiors cool in summer and warm in winter.
- SOUND INSULATION**
Reduces outside noise for a quieter and more peaceful environment.
- WEATHER RESISTANT**
Resistant to rain, wind, humidity, and corrosion. Perfect for all climates.
- LOW MAINTENANCE**
Does not require painting or polishing. Just a simple wipe keeps it new.
- ENERGY EFFICIENT**
Helps reduce energy bills by maintaining indoor temperature.
- SECURE & DURABLE**
Multi-point locking systems and strong frames ensure safety and durability.

ALUMINIUM CASEMENT WINDOWS

Aluminium caseiment windows are strong, sleek, and designed for modern architecture with slim profiles and long-lasting durability.

- STRONG & DURABLE**
Aluminium is highly durable and can withstand heavy wind loads.
- SLIM & MODERN DESIGN**
Narrow sightlines offer a sleek, contemporary look with maximum glass area.
- CORROSION RESISTANT**
Powder-coated finish protects against rust and weathering.
- CUSTOM FINISHES**
Available in a wide range of colors and finishes to match any design.
- RECYCLABLE & ECO-FRIENDLY**
100% recyclable material, environmentally sustainable.
- SECURE & RELIABLE**
Advanced locking systems for enhanced safety and performance.
